OFFICIAL TOOL SUPPLIER

Redbull Honda World Superbike Team

As a valued partner of the Redbull Honda Team, SP Tools provides their tools for use across a wide range of applications. In an environment where winning is everything, the culmination of many variables must be aligned in order to achieve the ultimate result – victory.

SP Tools delivers the ultimate tools for the racing industry. The tools are designed to work easy, quick, be reliable, easy to store, easy to clean and last but not least look very good. The combination of our tools together with the Redbull Honda WSBK team is a very good match.

WE ARE A PROUD SUPPLIER OF THE HONDA WSBK TEAM

Walkinshaw Racing

Anthony McDonald, Team Manager, comments "The SP Air and Hand Tools that we use are fantastic. Be it in race conditions or back at the workshop, we are all impressed by their quality and reliability. And with the recent build of a complete new chassis, our engineers and mechanics were all hands-on with the SP gear – it's great to have their support". Twenty full time engineers and mechanics, hundreds of man hours in design, fabrication and assembly, one tool supplier. SP – official Air and Hand Tool supplier and a major partner of Walkinshaw.

KTM-Husqvarna Australia

When it came to setting up the KTM-Husqvarna National Training Centre we wanted to represent our product as per the Motto "READY TO RACE" this means quality, reliability, performance and value. All words that also describe the SP Tools range of products.

It was with this in mind that I worked my way through the SP Tools catalogue, setting out a workshop environment that was not only pleasing to the eye but effective and efficient to work in, it was also important that attending technicians could return to their workshops with ideas on how to improve their own workshop layout.

SP not only had the range of tools covered, but also offer storage cabinets, roll cabs, and benches to build the entire workshop space.

I highly recommend the SP Tools range of products.

Geardrive Technology

SP's patented Geardrive Spanners are precisely machined with deeper gears for greater torque and only require 5° of space for each turn.

Ratchet Head allows the wrench to travel without removing from fastener.

- Heat treated chrome vanadium steel for strength exceeding international standards
- Small head profile designed for working in confined spaces
- 72 Teeth needs as little as 5° to move fastener

SCANNER CODE READER**CAN OBDII/EOBD SCANNER CODE READER**

Model No.	Description
SP61150	<ul style="list-style-type: none"> Works with all 1996 and newer vehicles that are OBDII/EOBD compliant (including CAN). Reads and clears generic and manufacturer specific diagnostic trouble codes (DTC's) and turns off check engine light. Supports multiple trouble code requests: Generic codes, pending codes and manufacturer specific codes. Code definitions are displayed on unit screen. Reviews the emission readiness status of OBDII Monitors. Determines malfunction indicator lamp (MIL) status. Retrieves VIN (Vehicle Identification No.) on 2002 and newer vehicles that supports Mode 9. Reviews the live data on unit screen. Easy to use with one plug in, highly reliable and accurate. Stand-alone unit with no need for an additional laptop/computer to operate. Small in size and comfortably fits in the palm of your hand. Unit updates via internet by USB cable. Software CD with over 10,000 DTC definitions included. No batteries needed as the unit is powered via OBD2 cable.

NOTE: Ensure your vehicle is on the list of compatible vehicles before purchase, visit www.sptools.com and search product by part number (SP61150).

If unsure, contact your vehicles manufacturer to check if the vehicle is OBDII/EOBD compliant.

SMART BATTERY CHARGERS

- Built-in microchip charging control and monitoring system.
- Zero volt minimum start – can charge a completely flat battery.
- Optimally designed charging cycle designed for Lead Acid / AGM, Gel, & Calcium, starting and deep cycle batteries.
- Automatic adjustment of charging voltages according to environmental temperature.
- Overcharge protection, protecting the battery from damage due to overcharging.
- Reverse polarity, short circuit, overload and high temperature protection.
- LED display percentage of battery charge, larger
- Battery Testing function while charging (faulty batteries cause the full battery bar display to flash).

WARNING: Batteries contain corrosive liquid. Always wear approved gloves and goggles when handling batteries or battery acid. If battery acid contacts skin, wash off immediately and contact a doctor for further advice.

BATTERY QUICK CONNECT HARNESS WITH CHARGE INDICATOR

Model No.	Description
SP61BCI	The SP Battery Charge Indicator includes a Quick Connect Charging Harness. When recharging of a battery is required, simply connect your SP battery charger to the Battery Charge Indicator using the quick connector plug. The SP Battery Charge Indicator is designed to display the condition of the battery in real time and is ideal for any 12v Automotive applications, including: Motorcycles, Recreational Vehicles, Marine Craft & Lawnmowers.

BATTERY QUICK CONNECT HARNESS

Model No.	Description
SP61BRC	Simply connect the quick connect charging harness to your installed battery for easy charging without the hassle of connecting alligator clamps to hard to reach batteries. Ideal for any 12v Automotive applications, including: Motorcycles, Recreational Vehicles, Marine Craft & Lawnmowers.

ULTRA-CAPACITOR JUMP STARTER

NEXT GENERATION

Model No.

SP61074

This premium, next generation jump starter utilises ultra-capacitor technology and allows a vehicles flat battery (provided it still has more than 5 volts available) to charge the jump starters capacitors and then jump start the vehicle.

Simply connect the ultra-capacitor jump starter to the vehicle battery, the jump starter will display the vehicle batteries existing voltage and health status and if necessary can then charge itself from the depleted vehicle battery (or if available from any other vehicles battery), once charged the Jump Starter is then able to supply a short burst of full power back into the vehicles electrical system, allowing for vehicle start up.

FEATURES:

- 12v 700AMP Jump start (Petrol engines up to 5L V8 & Diesel up to 3L)
- LCD intelligent display shows health status of battery
- Fast charging, 4 ways to get power for jump starter
- Protective rubber sleeve
- Hi-power LED flashlight
- Includes convenient carry case

SPECIFICATIONS:

- Peak Current: 700A (3 seconds)
- Charging: CC/CV 5V2A & 12V10A (input voltage)
- Back-up battery capacity: 6,000mAh
- Output Voltage: 12V
- Cycle Life: Approx. 100,000 cycles
- Operating temp.: -20°C~60°C/-4°F~140°F

Rugged enough to be stored in vehicle for many years and able to be quickly recharged on site for use when its needed.

COMPACT SIZE
250L x 120w x 50h

Tough, compact and always reliable. The SP Next Generation Ultra-Capacitor Jump starter is an essential tool in the vehicle maintenance and road side assistance industry's tool box.

RELIABILITY WHEN YOU NEED IT

- ALWAYS READY FOR USE WHEN YOU NEED IT
- CAPACITORS CAN FULLY CHARGE IN 45 SECONDS*
- DISPLAYS BATTERY VOLTAGE AND CONDITION
- ACCEPTS POWER INPUT FROM MULTIPLE SOURCES

MULTIPLE WAYS TO CHARGE:

Worst case scenario, the vehicles battery has less than 5 Volts, the jump starter can be charged through multiple devices, from any:

- USB charging port via the 5V input, such as USB mobile phones charger, computers, power banks and so on.
- The vehicles onboard 12v power outlet.
- Another vehicles battery via the jumper cables.
- Transfer the stored power from the charged onboard back-up battery.

INDUCTION HEATER

Content:

- Inductor
- Flexible cable 800mm
- Induction spiral straight 19mm
- Induction Spiral straight 28mm
- Induction pad (sticker remover)
- Induction hook (specially developed for track rods) [PAT.]
- Case

Model No.

SPIH-00

Specifications:

- Temperature: 800° C.
- Weight: 4,5 kg
- Power: 1700Watt

With the SP Tools Induction heater you can heat specific nuts, bolts, nipples, Pit man arms, etc without burning surrounding parts. These stuck parts can be loosened in a quick, safe and focused manner by induction heating. The SP Tools Induction heater makes an end to open fire in the workshop. The Induction heater can be operated with one hand and the coils are easily exchangeable without tools.

CHOOSING THE RIGHT SP GENERATOR FOR THE JOB

It is important to size your generator correctly to meet your needs.

Follow the chart below of most commonly used appliances and their average power requirements to get an idea of what your generator would be best suited for. Please note that this is a guide only and if you are unsure or require more information on any SP Generators, please contact your nearest SP Destination Store. *All SP Destination Stores can be found through the handy store finder at sptools.com

SP INVERTER GENERATORS

- Patented engine with big volume muffler to increase fuel efficiency and reduce noise
- Patented permanent magnet inverter generator with ESC intelligently controls rpm to reduce noise and fuel consumption
- Patented 3 way cooling system to lower running temperature and extend engine life
- Patented exhaust gas circulation – exhaust gas passes through 2 cavities for double oil separation, decreases oil consumption and extends engine life
- Single cylinder, 4 stroke, forced air cooling, OHV engine
- Meets EPA, Proposed Australian Emissions Standards & strict Californian pollution laws (amongst the worlds strictest environmental protection standards)

SPGi3300E

Ideal for all camping & leisure activities, compared to similar products, the SPGi3300E is a powerful super quiet inverter generator with the best power, size to weight ratio on the market. Built around the reliable Torini race tested 7Hp engine and intelligent power supply, it is well suited for recreational use with air conditioners, refrigerators, microwave ovens, coffee machines & entertainment appliances. The microprocessor controlled inverter produces a high precision, pure sine wave power output, perfect for laptops, computers, mobile phones & tablets making it ideal for back up power at home during power outages & storm emergencies. Don't risk your electronic devices on anything less.

LATEST TECHNOLOGY

JOIN ANY TWO SP INVERTER GENERATORS TOGETHER FOR AN ADDED BOOST IN POWER

Joining any two SP Inverter Generators in parallel connection will ensure you get the **full combined rated power output** when you need it most.

Similar products on the market may only output a fraction of their combined rated power when connected together in parallel, making the SP Inverter Generator range the market leaders and the most technologically advanced generators available today.

GET DOUBLE THE POWER!

$$1600w + 1600w = 3200w$$

NO LOSS OF POWER

Parallel connection cable included
Join two 3.2Hp Inverter Generators together (SPGi2000)

POWER WHEN YOU NEED IT!

Keep your options open, add power when your power needs increase

$$1600w + 3000w = 4600w$$

NO LOSS OF POWER
